STRATEGIC PARTNERS

Coordinators

Tricker	-Cancer	Roethig	-Clinical Testing
Sanders	-ETS	Reininghaus	-Non-Clinical Testing/Research
McKinney	-COPD	Davies	-Smoke Exposure/Reduced Exposure Product
von Holt	-CVD	Appeal	
Dempsey	-Reproduction	Podraza	-Acceptability
Patskan	-Harm Reduction Guidance/ Evaluation		

The role of Worldwide Scientific Affairs is to conduct a transparent and credible program, which effectively applies our understanding of smoking and health science to responsible product development. To this end, WSA has two responsibilities. First, we are responsible for understanding smoking and health; this is done through our harm reduction guidance, product acceptability evaluations and harm reduction evaluations. In addition, we are responsible for communicating with the scientific and public health community.

In order to attain our goals, we have certain focus areas. These areas include:
- Cancer
